Commission Looks At Use Land Map; Master Plan In Mind

Rezoning Reviews Start With Upgrading In Mind

Bushes, Rocks, Trees and Plantings In Parkways To Be Given Serious Study

At the adjourned meeting of the Sierra Madre Planning Commission with all Commissioners present except two, the tedious job of rezoning reviews were started with four parcels first on the agenda.

The Star Nursery parcel at 547 Fairview remained as zoned R-1-7500 by a vote of the commission two negative and four affirmative.

The Stringfellow parcel at 497 W. Grand View was rezoned to R-1-9000 by a vote of five to one, although Mr. Stringfellow pleaded with the Commission to "let me live in peace."

The Jameson parcel at 481 W. Highland and the Kraft parcel at 448 W. Highland were both rezoned R-1-

9000 by a unanimous vote of the commission.

These are the first Public Hearings on some seventeen parcels which the Commission feels should be rezoned, either up or down to conform with the areas in which they exist.

R-3 driveways, referred back to the Commission by the City Council, was given Commissioner Emerson, who will make a study of the situation and report back at an early meeting.

Tree Plan, the proposition of parkways, bushes, parkway plantings was given to Commissioners D'Arcy as chairman, Emerson and Wright, for study and recommendations at the November regular meeting.

Van Iersel To Be Grand Marshal

According to Wally Boyko, Commander of the Veterans of Foreign Wars, Harry L. Embree Post No. 3208, the Flag Dedication and Parade is progressing very satisfactorily.

The latest development is the choice of Louis M. Van Iersel as Grand Marshal, and the notification that a unit from the 11th Naval District from San Diego will participate in the parade.

Notification that La Societe des 40 Hommes et 8 Chevaux, which is the Honor Society of the Legion will also be present with their boxcar.

The Sheriff's Youth Band will also be present for the parade and dedication which has been set for November 17. Route of the parade and time length will be set later.

Lee Shippey Writes On Politicians

A politician is a fellow who talks fervently about economy while running for office, but begins working for more pay as soon as he is elected.

For example, Congress is always talking about economy but every year the aides and expense accounts and perquisites of Congressmen cost us more and more, and their latest necessity is a quite expensive swimming pool. Not such a bad idea, really, in sultry, humid Washington as it often is in the summer, but not half as good an idea as settling down to business very early and getting important legislation passed or defeated with promptness. And, how are we ever going to get 'em back to their desks, once they plunge into the pool?

The reminds one of the World War I song, "How're We Going To Get 'em Back On The Farm After They've Seen Paroo?" "And that, in turn, reminds us that a great many Congressional junkies also make it necessary for the dutiful, economy-minded Congressmen to travel by way of Paroo. I suspect that if the expense-account figures for all sorts of public figures, national, state and municipal, were made public they would be

Capacity Audience

Mrs. Emily Phillips Lectures In Monrovia

Mrs. Emily Phillips lectured before an interested, capacity audience last week at the Monrovia Elks Club, on the presence and effect of interlocking directorates in the governing bodies of the Board of Education, Community Chest, and the

PTA, especially in Los Angeles and the San Fernando Valley. A chart showed the same names appearing on school boards, in the PTA governing offices, and on the boards of Community Chest.

CHARLES EATON, veteran restaurateur and owner of Eats restaurant and Hotel in Arcadia, will be honored Oct. 6 at a dinner dance at the Beverly Hilton Hotel in Los Angeles, sponsored by the Southern California Restaurant Association.

She stated that the California Congress of Parent-Teachers has a membership in excess of 1,800,000 members, the largest in the United States, but through its powerful lobby, a small group has succeeded in having legislation passed without local representation or consultation. Also, in direct violation of National PTA policies, the Los Angeles PTA District is the first in California to join forces with the Board of Education and it is an agency of the Community Chest.

The speaker, mother of five children and a former PTA president in the San Fernando Valley, indignantly showed publications from some State supported colleges and junior colleges which were pornographic in nature and one in which our national heroes were ridiculed.

The lecture was sponsored by the Average Citizen's Study Group of Monrovia. Mrs. Phillips was introduced by Mrs. Kenneth Karelius, the capable chairman of the evening and secretary-treasurer of the study group.

One of the top driver colonies in autumn meeting history will be lined up to

Lions Club Sponsors Program

The Lions Club of Sierra Madre will sponsor a program to be conducted by John Rees, formerly of Lithuania, who will speak of Communist terror in his native country. The program promises to be an interesting one as Mr. Rees will speak from personal experiences.

This event will be held the evening of Oct. 4 in the parkhouse in Sierra Madre Memorial Park, at 8 p.m.

The meeting will be open to the public as part of a continuing effort by our local Lions Club to offer financial, recreational and educational support to the community.

Friends Of Library Announce First Film

The Friends of the Library announce the first film in the 1962-63 Los Angeles County Museum Film Circuit. "The Man Who Tread on the Tiger's Tail," a Japanese film, will be shown in the Sierra Mesa School, October 8 at 7:30 p.m.

The Film Circuit is an extension service of the Museum in cooperation with Southland communities. Beginning in January, 1951, the Long Beach Public Library undertook to repeat outstanding Museum film programs. These showings were so successful that by fall of 1951 four additional libraries had made similar re-

W. S. HULL PASSES AT AGE OF 93

Wilbur Sumner Hull, age 93, passed away Oct. 1 at the Sierra Madre Community Hospital.

He was born June 6, 1869 at Saline, Michigan where he went to school and came west when he was 19 years old. Mr. Hull came to Sierra Madre 50 years ago with his wife Lorena and young son Charles and became a partner in the Sierra Madre Hardware Company where he remained for 38 years retiring at the age of 81 in 1950.

He was a life member of Knights Templar of Windsor, Canada, a 50 year member of the Sierra Madre Masonic No. 408 and Al Malaikah Temple. He served the Lodge as treasurer for over 10 years.

For many years he was a director of the Sierra Madre Bank and a member of the Advisory Committee of the First Western Bank. He was a member of the Sierra Madre Congregational Church where he had been, clerk, auditor, moderator and treasurer, the latter for two nine year periods.

He was also a member of many committees, including the new building committee, Board of Ushers and Trustees and on the occasion of his ninetieth birthday the church paid tribute of affectionate regard to him. He was the designer of the pews and chancel furniture when the present building was erected.

He is survived by his wife, Mrs. Lorena D. Hull, of 439 Mariposa Ave., a son Charles of Kingman, Arizona, a daughter Mrs. Robert (Cynthia) Baugh of San Marino and four granddaughters, and a sister Mrs. Jack Quinn of Saline, Michigan.

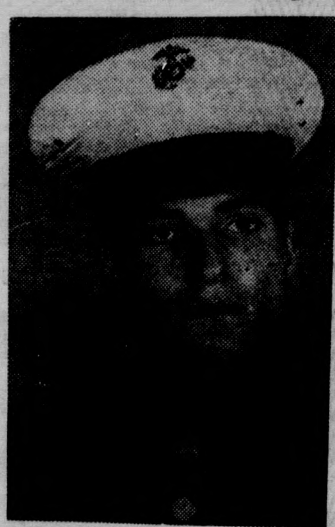

Private services are being held today (Thursday) at 11 a.m. at Ripple Mortuary. Contributions may be made to the Memorial Fund of the Sierra Madre Congregational Church in lieu of flowers. Committal private at Live Oak Cemetery, Monrovia.

IRL BEATTY (left), Sierra Madre vice chairman, American National Red Cross, presents plaque of appreciation to Mr. and Mrs. Jim Backus (Mr. Magoo) for their lively entertainment at the first annual Red Cross Dinner of the Pasadena Chapter, held at the Huntington Hotel.

The event, featuring an international fashion show presented by Broadway Southern California, was attended by 350 Red Cross volunteers and guests from Pasadena, Altadena, Sierra Madre, and the Chapter's four other branch communities. Sierra Madre was represented at the dinner by Messrs. and Mesdames Beatty, Carl Brand, Frank Dolph, Walter Fader, Harry Ferguson, Carl Hansen and Richard Law.

Samuel McDonald Honor Graduate

Samuel Charles McDonald has been graduated from the University of California at Los Angeles with the degree of Bachelor of Arts and has received his honorary citation in mathematics.

He attended Sierra Madre schools from kindergarten through elementary grades, Wilson Junior High School, Pasadena High School and PCC, graduating from all schools with honors.

Mr. McDonald will continue studies at UCLA to attain his Masters Degree and credentials to teach at the secondary level.

He is the son of Mr. and Mrs. N. S. McDonald of 227 S. Baldwin.

I cannot say too much about my new daughter . . . A bragging and proud father is not a very good conversationalist, but I am sure happy to have both my daughter and wife at home. Now all the family is together and we can settle down for a nice quiet, happy life in Sierra Madre. Now we have but to get the November election over with and Christmas will not be far behind.

Speaking about elections. Never before in my history have I seen so much concern by the candidates. I truly think they are worried as to what the voters are going to do this year.

It is only the last days of September and the first of October and Saturdays mail brought 137 political letters across my desk. This is just for one day. Many candidates and many pushers of propositions are not satisfied with one letter, but feel it is necessary to send as many as three and four.

Too bad, I hate to see a worried politician, he makes promises that he finds impossible to keep in the event that he is elected. Watch those promises, remember you are the joker that is going to pay for them.

Now thinking about more pleasant things . . . do you know that we now have but 68 shopping days before Christmas, which leaves only 36 shopping days until we must have that Turkey bird on the table . . . give it some thought.

I do not know whether this happened in Sierra Madre or not, but it seems that a well-known speaker had lectured to the members of a literary society, and at the end of this address, he secretary approached him with a check. This he politely refused saying that it might be devoted to some charitable purpose. "Would you mind," asked the secretary, "If we added it to our special fund?"

"Not at all," said the speaker. "What is the special fund for?"

"To enable us to get better lecturers next year," said the secretary. Some times you just cannot win for losing.

Wasn't that a honey of a fair this year. Most of the people attending remarked that this one was the best. That we had returned to the old time fairs, and they really enjoyed it this year.

It has been said many times, and we believe it to be true, that "some people are so busy telling you how

Victoria before reboarding to return to San Francisco. They returned home via San Jose where they toured through the old Winchester house.

The Villa Guild of Rosemary Cottage met at the home of Mrs. Edward Halperin last week at a breakfast meeting. The purpose of this meeting was to introduce the new members and to make plans for the tea to be held on December 5th.

The new members are Mrs. Sidney Parker, John Hedrick, Kenneth Christian, Charles Harrison, Gene Rode, George Stevenson, Robert Anderson, Leslie Garlinghouse and Wells Pleas.

Kathleen's maternal grandparents are Mr. and Mrs. Maurice (Mary) Perkins of 560 Brookside Lane. Maternal great-grandmother is Mrs. Ellen Power, County of Tipperary, Ireland. Paternal grandmother is Mrs. arian Harriman of Boston, Mass. Mr. and Mrs. Harriman are now visiting in Ventura.

Mr. and Mrs. Mann came to California two and one-half years ago and stayed with Mrs. Mann's parents for a few days. Mr. Mann was sent to the local Medical Center for a physical examination before going to work for Burroughs Company and he immediately wanted to move to Sierra Madre because it reminded him of his own hometown in the east. They moved here a short time later and say they love the town and the people. Until their baby arrived, Mrs. Mann was church secretary for the Bethany Church on N. Baldwin. Now she's busy taking care of David Rollin.

Gala Dinner-Dance For Nursery School To Be Held October 13

"A Preview To Las Vegas," is the theme for a gala Dinner-Dance for parents, alumni and friends of the Sierra Madre Community Nursery School on Saturday, Oct. 13, at 6:30 p.m. on the estate grounds of Mr. and Mrs. Claude Brown Jr., of Sierra Madre.

An evening of fun, dancing, refreshments and a superb buffet dinner is planned. Dinner and dancing music will be provided by "The Studio Quintet," headed by Mr. Cavalier of Frank Green's Music Shop, Sierra Madre.

Decorations will appropriate the theme, according to Mr. and Mrs. William L. de Prose, Jr., benefit co-chairmen, with the assistance of Mmes. John Veblen, Jack Aguilar, Thomas Thurston, Russell Richardson, Wanda Burk, Julius Holmquist, and

Friends of (Continued from Page 1) guests. Today there are 21 libraries, civic clubs and colleges who are members of this circuit. The Friends of the Sierra Madre Library are included in this group.

When the wartime Japanese government commissioned Akira Kurosawa to film the favorite Kabuki drama, "Kajincho," they expected to produce a propaganda piece extolling the old conception of feudalism and obedience. Instead, he parodied the Kabuki tale, introducing a low comedy portier and satirizing militarism. As a result, the film was banned twice; first by the Japanese government and again by the occupation government. To present day audiences who can enjoy the fun as well as the Kabuki style, which Kurosawa employed with dance and song to move the plot along, the film is an original melange of the exotic and humorous.

The film runs 60 minutes in Japanese dialogue, with English subtitles. Other notable films to be shown this season are "Shoeshine," "Red Shoes" and "Hamlet," starring Sir Laurence Olivier. Brochures about the coming events may be obtained at the library.

Ann and Robert Forney celebrated their 20th wedding anniversary yesterday, dining with long-time friends who were present at their wedding!

Hope you didn't miss the County Fair, our family thought it one of the best! The skill and beauty of the Royal Canadian Mounted Police should be long remembered by all who witnessed their faultless precision drills. And what visitor, young or old could resist the charm of "Storybook Farm."

The garden and flower exhibits seemed more spectacular than ever and I kept wishing my green thumb were greener. I got their message too — in the future no garden will be complete without a waterfall.

Among the display of Christmas novelties in the Domestic Arts building, was a colorful fruit and gift tree made by Mrs. Nicholas Martin, 1040 Hampton Rd., Arcadia.

Top prize in quilts went to Mrs. Audrey Almond of Ingleswood for the tenth year! As with all Mrs. Almond's quilts, this year's entry, "First Baby" is an example of her ingenuity and precise detail in telling a story with needle and cloth.

Remember her nostalgic red and white quilt titled "Christmas at Grandmas?" I've always been particularly fascinated by the three dimension effect she achieves in many of the quilt pictures.

In a brief interview with this clever lady I learned

she's already at work on next year's entry. That is, when she's not attending classes at Pepperdine College, where she's studying for her teaching credentials or joining her two partners in custom catering a wedding. Another interest is that of guiding a theater workshop for young people.

"Young At Heart," Mrs. Almond's quilt entry for two year ago, was the story of her daughter; now married and working for her teaching credentials too. And here's an interesting local note — her husband, George Almond, grew up in Sierra Madre! Just goes to prove . . . you meet the nicest people at the County Fair.

A surprise birthday party for Bob Farmer drew a lot of the hill folk down to the Farmer's new San Marino home Saturday night. Carmen did her best to describe to me a gag gift created by Pat Olson. An "assembly" ala Nedliss as described in Time magazine, consisting of paint paraphernalia, (roller, sand paper, band-aid beer can, etc.), cleverly assembled in a crate and glamorously gold sprayed. Guests were Messrs. and Mrs. A. W. Olson, Jr., James Fay, Malcolm Muri-son, Brewster Benedict, Dean Snyder, Harlan Dunn, Guy Knudsen, Bud Newton, Anthony Boland, Gordon Wright, Forest Paxson, C. D. Hays, Charles Hardison, Eugene Rode, Dom Giangre-gorio, Ken Christiansen, Alan Stearns, Charles Eld-son, John Wardle and Jeanne Slavin . . . husband Matt was on a business trip to South America.

Celebration of two birth-days and a wedding anniversary were the highlight of a formal dinner party Saturday evening given by Lorraine (Mrs. Donald) Smith of Daveric. It also marked the first party since the Smith's remodeled their kitchen and added their family room. The champagne toasted honorees were Mrs. Will Hoffeld and Donald Smith, birthday anniversary; Mr. and Mrs. Richard Withrow, wedding anniversary. Guests included the Will Hoffelds, Stan Gallans, Fred Krafts, Leonard Pallors and Ray Fullmers.

Editorially Speaking....

"Seek ye first the kingdom of God, and His righteousness; and all these things shall be added unto you."
— The Bible Matt. 6:33

Facts Speak Eloquently

Allegation is one thing. Fact is apt to be something very different.

This truism applies to the discussions, political and otherwise, concerning the cost of prescription drugs and to the controversy over patented as against nonpatented drugs.

There is a widespread impression that drug prices have soared. That is largely the result of politically inspired allegation. The facts, on the other hand, have been gathered by Dr. John M. Firestone of City College of New York, an authority in the specialized field of index number construction.

Dr. Firestone's index covers more than 300 pharmaceutical specialty products. It shows that their wholesale prices in 1960 had declined to a level of 92.4 per cent of the 1949 base period. During the same year, the general wholesale commodity index recorded a rise of 26 per cent. If the drug price index is extended through 1961, a further decline is registered, to 89.7 per cent of the 1949 level.

This means that for all prescription specialty products, the 1961 wholesale price level was 10.3 per cent under that of 1949. And the best record, from the buyer's standpoint was made by patented products. In 1961 they cost an average of 20.2 per cent less than in 1949. The decline for nonpatented products was only 1.3 per cent.

These facts speak for themselves, and eloquently. The need, in the light of bitter political attacks against the drug industry, is to make them more widely known.

Want To Save \$50 Billion

Are you — as a taxpayer — interested in a plan through which the government could save \$50 billion (yes, 50 billion!) over the next 20 years — a sum equaling the nation's entire projected air and missile defense budget for that period? If so, President Philip A. Fieger of the Edison Electric Institute, gives you something worth thinking about.

During those 20 years, the investor-owned electric companies will spend about \$140 billion for new construction. On top of that, government will benefit to the extent of \$100 billion in federal, state and local taxes that will be paid by investor-owned electric companies.

Government-financed and -operated power suppliers now account for 20 per cent of the whole. So, if that ratio is maintained, government will have to spend \$35 billion on new construction. This would also mean the loss of \$15 billion in taxes which private enterprise would pay if it did that part of the job. Total: a cool \$50 billion.

Just about everyone is now talking about possible ways and means to stimulate the lagging American economy — one of the major projects, now scheduled for next year, being substantial tax reduction for both industry and individuals. There's a way, and just one way, this can be done without running the risk of more and more inflation. This is by cutting out every non-essential government expenditure. Government in the electric power business — whether that power is produced by conventional fuels, by falling water, or by the atom — is an outstanding example of unnecessary and wasteful spending of public funds.

Freedom At Any Price

by Henry V. Witt

The attorneys of California have recently concluded their 35th annual meeting of the State Bar Association. At his meeting they passed a resolution disbarbing attorneys who belong to organizations advocating overthrow of the government.

If the attorney involved has knowledge of the aims of the organization of which he becomes a member.

A resolution was decisively defeated which, if passed, would have disbarred any attorney who is a member of the Communist Party.

This columnist, a short time ago, attended a meeting of the American Civil Liberties Union held in Arcadia, California. At this gathering of individuals, allegedly dedicated to the protection of civil liberties, an attorney belonging to the A.C.L.U. pointed out with great satisfaction that a new "liberal" law was in effect.

This piece of legal maneuvering makes the author of an obscene book, such as Tropic of Cancer, Simon pure and innocent of any crime as long as he doesn't know that his writing is obscene. And now membership in a subversive organization without knowledge of its aims doesn't constitute sufficient grounds for disbarment. What a "hopper" full of hogwash! It doesn't take a Charles Evans Hughes to realize that whether writing fifth or being a member of a subversive organization is involved, the legal gymnasts have left a loophole big enough to drive a spike into the heart of Americanism.

A man endowed with sufficient intelligence to survive the rigors of law school and then to prove his capabilities by passing the state bar association, certainly must be capable of accepting the responsibility of recognizing subversion and treason.

A part of the secret Communist Oath taken directly from the Party Handbook on Organization by J. Peters reads as follows: "I pledge myself to rally the masses to defend the Soviet Union, land of victorious Socialism. I pledge myself to remain at all times a vigilant and firm defender of the Leninist line of the party, the only line of the party, the only line that insures the triumph of Soviet power in the United States."

Out of 39 known Communist lawyers in the nation, we have 23 of them in California—14 in Los Angeles alone. However, a Beverly Hills attorney, in urging defeat of the resolution to disbar any attorney who is a member of the Communist Party, said that the subject was "not worthy of such a resolution." He continued,

"Such fear producing factors as this deter lawyers from defending persons accused of so-called unpopular crimes."

The HUAC differs with the gentleman from Beverly Hills. In the Report by the Committee on Un-American Activities, House of Representatives, Eighty-Sixth Congress—First Session, page 2, it states: "How can a lawyer maintain his oath to uphold and defend the Constitution of the United States when he is an agent of a conspiratorial apparatus designed to destroy the Constitution?"

"How can a lawyer carry out his duty to serve the interests of a client if he is under Communist discipline which subordinates professional loyalties to the interests of the Communist Party?"

"How can a lawyer meet the high standard of ethics and conduct, historically required of members of the bar, if he exploits the knowledge and prestige of his profession in behalf of Communist propaganda, subversion and espionage?"

The McCarran-Walter Act and the Nationality Act of 1940 have identical provisions as follows:

"A person who is a national of the United States, whether by birth or naturalization, shall lose his nationality by . . . taking an oath or making an affirmation or other formal declaration of allegiance to a foreign state."

Any professional man, whether he be an attorney or otherwise, who prescribes to or takes the Communist oath, should not only be removed from practicing his profession but also relieved of his citizenship. However, the United States Supreme Court, in the case of Knigsberg v. State Bar of California, reversed the decision of the State Committee of Bar Examiners and of the California Supreme Court and held that it was unconstitutional to deny a license to practice law to an applicant who refused to answer this question put to him by the bar committee: "Mr. Knigsberg, are you a Communist?"

Perhaps our law schools would be farsighted if they introduced a new course entitled—How to Count in Rubles!

Today the horn of plenty is usually found under the hood of a high-powered automobile.

The fellow who says more than he thinks is apt to make others think more than they say.

'YOUR CITY AND MINE'

"TYPICAL PLANNING COMMISSION PROBLEMS"

The Planning Commission is created under specific powers written into State Law, and these powers are further defined by the Sierra Madre City Code. These laws define what can be done in actions regulated by the Planning Commission, such as subdivisions, moving buildings, splitting a single lot into four or less parcels, and in developing in any of the six zones of the city. In most instances the law as written is definite and gives exact restrictions.

The Planning Commission actions are taken at their regular meeting held the 3rd Thursday of each month at 8 p.m. at the City Hall. Actions are divided into those requiring public hearing and those at which informal hearings are held. In either case, the public is encouraged to present their comments.

Notices of public hearings are always published in the Sierra Madre News. This is done for the purpose of telling every one that action is starting and, if interested, the individual should make further investigation.

On ALL planning commission items, notice is also mailed to all residents within 300 feet of the property on which a change is requested.

Lot splits and subdivisions will be considered together here since they are basically the same problem on a small or large scale. Under a lot split you can create four or less properties from one existing property while under a subdivision you divide several hundred lots into a few hundred lots. The number of lots, the two are similar as far as planning commission action is concerned.

A tentative map is submitted to the Planning Commission showing the entire property including layout of the land, existing contours, existing buildings and the way the land is proposed to be divided. The Commission requires information about the provision for storm flows, sewerage, public streets, including sidewalks, paving and street lights and utilities such as water, electricity, gas and telephone service.

The minimum lot frontage, depth and area is set out in the city laws for the zone in which the development is proposed. The developer must show how the land will be graded when the subdivision is completed and how the run off from the lots will be controlled. All the details necessary to develop the property and protect surrounding properties are worked out between the developer and the Planning Commission, the developer proceeds with preparation of final street, sewer, storm drain, grading and utility plans. A great deal of review and study occurs now to insure that

CARROT TOP

busy they are, that they can't get any work done.

Reviewing some of the news releases coming across my desk relative to football material for the coming months reminds me of a story which happened last year in Kern County. Seems that a great contest was being waged toward the end of the year and the coaches and players were all very tense and all working toward the championships. . . . despondent because his team was taking a shellacking again, this coach looked down the bench of substitutes and yelled: "All right Allen go in there and get ferocious," Allen jumped up, elated. "Sure thing Coach. What's his number."

Here's a happy thought . . . it takes Uncle Sam about 7 hours today to collect as much tax money as he took in the full year of 1913 . . . and they wonder why we have men who are exploring chances to going to the moon. This is about the only place we have left to sail away to . . . God Bless our Pilgrim fathers, they just did not sail away far enough, or they had a government man in the boat with them.

We will close this week's column with a bit of additional nonsense: "I'm Mr. Smith's wife," said the brunette introducing herself to a lovely blonde at a party. "I'm his secretary," replied the blonde.

"Oh!" said the brunette, arching her eyebrows slightly, "WERE YOU?"

I must get to work . . . have another mouth to feed don't you know, so I'll be seeing you around, I hope, I hope, I hope.

above would require from 3 to 6 months for a simple lot split and from six months to over a year for a complex subdivision.

NEXT WEEK: Moving buildings, variances, conditional use permits. The developer gives the city adequate facilities such as adequate thickness, storm drains, and sewers which are large enough, and that all proposed construction meets the laws of the city.

Following approval of all the detailed maps of the city, the developer puts up a bond to guarantee the work will be finished and also deposits with the city funds to cover the cost of all construction inspection required. All the areas used for public streets must be deeded to the city and easements granted to the city for storm drains and sewers and to the public utilities for gas, water, electricity and telephone.

Just American

It's reported that several people around Anaheim, California, have received implied death threats for being Anti-Communist and Pro-Jewish.

So far we haven't received ours; guess they haven't gotten down to the M's yet. Even so, I want to go on record as being Anti-Red and Pro-Jewish—in fact, we go to church every Sunday and worship our Lord who was an Israelite. I also love my blood brothers, the Indians, my colored brethren and my Mexican brethren . . . Now if there be any doubt as to how I stand — I'll try 'er again, Dad Burnit!

Last Resort
Common sense is a compass that we never think of consulting unless we have lost our way.

"I know," said the Hermit sheepishly. "But do you recall what they did with the Aga's sacred bath-water?" "Yes, they bottled it and sold it to his enraptured devotees as a sort of divine elixir that — I broke off in horror.

"I know it's distasteful," sighed the old man. "But the way we're spending, our debt will reach the moon ahead of our astronauts. The situation is acute. It calls for drastic action. Well, skip the bathwater. But mightn't we just bottle the drainage from the White House swimming pool?"

"We might," I admitted sympathetically, "but to dent the national debt we'd be so busy filling the pool and draining it that Jack would never get a chance to swim."

Hermit of The Sierra Madre

with Den Murray

I asked the Hermit: "What do you think of the Massachusetts Demos proposing for 'The Most Exclusive Club In The World' a young man who got thrown out of even Harvard for employing a shark to pass an exam for him?"

"His name is Kennedy isn't it?" I nodded. "Well then," shrugged the Hermit, "the election wouldn't have gone any different if honest young Teddy had given the knee to a little old lady in a touch football game. The Kennedys — Papa's five hundred million bucks notwithstanding — have become American deities."

"You seem positively exhilarated by the fact," I am, he admitted. "The rise and spread of Kennedy worship has given me an idea of how to pay off the national debt."

I stared. His eyes were glinting like a Merlin tossing a pinch of magic powder. "Remember the old Aga Khan? Spiritual head of the Moslem sect that showed their adoration by annually paying him his weight in gold?"

"Yes, but if you're figuring to have Jack's faithful ante his weight in gold each year to apply on the national debt — let me tick off a few flaws: One, FDR put all our gold in Fort Knox and you have to be a foreigner to siphon it off. Two, Jack is no heavy-weight." "Conceded," said the Hermit. "Three, even if you toss Bobby and Teddy into the scales with Jack, together with all his egghead advisers and 'Hatchet Harry' Truman, you still can't net enough revenue to finance the schemes and dreams of the liberal New Frontiersmen, let alone make a dime in the national debt."

"I know," said the Hermit sheepishly. "But do you recall what they did with the Aga's sacred bath-water?" "Yes, they bottled it and sold it to his enraptured devotees as a sort of divine elixir that — I broke off in horror.

"I know it's distasteful," sighed the old man. "But the way we're spending, our debt will reach the moon ahead of our astronauts. The situation is acute. It calls for drastic action. Well, skip the bathwater. But mightn't we just bottle the drainage from the White House swimming pool?"

There Is A Solution To Your Problem

"There Is A Solution To Your Problem" is the sermon topic of Dr. Ethel Barnhart at both the Family Worship Service at 9:15 and the regular worship service at 11 o'clock Sunday morning, Oct. 7, at the Santa Anita Church of Religious Science, 226 W. Colorado Blvd., Arcadia. The new 9:15 Family Worship Service is established as part of the mission of this church to help bring forth a new world. The impact upon the lives of both the children and parents worshipping together (not just going to church) is limitless. There will be a sermonette for the children.

After the first 15 minutes of the service, the children will go to their classes with the Junior Church teachers. The balance of the service will be for the adults. Please note the change of time of the regular worship service from 10:30 a.m. to 11 a.m. There will be no Junior Church during the 11 o'clock service; however, child care will be provided. The public is cordially invited to both services.

A youth activity is held at 7:30 Sunday evenings for high school and first year college young people.

"God Wants You To Be Abundantly Supplied," is the subject of Dr. Barnhart's lecture Tuesday evening, Oct. 9, at 8 o'clock. This concludes the five-week series of lessons on "God Is My Abundant Supply." This class is open to the public. Free-will offering.

The regular mid-week morning service of the church is a meditation and healing hour Wednesday mornings at 10:30 a.m. conducted by Rev. Rosalie Fowler.

Dial-For-Prayer, HI 7-6162, day or night, for spiritual help.

Bethany Notes

World Wide Communion Sunday will be observed at Bethany Church of Sierra Madre this coming Sunday, Oct. 7 during the morning worship hour. Dr. Robert N. Schaper, pastor of the church will officiate at the service. Dr. Schaper states, "This annual international observance of the Lord's Supper can be a means whereby the Christian community can be stirred to realize what Christ really accomplished for mankind. I urge the entire community to find their place in a house of worship this Sunday."

On Sunday evening, Bethany Church will honor all of its members who participate in the educational department of the church. About 80 individuals in the church are actively teaching or sponsoring a Sunday school class, youth club or Christian Endeavor Society. Several features will be introduced during this service, culminated with the entire staff rising for a dedicatory prayer as they embark on a year of teaching the Word of God to children, young people and adults.

The annual fall Rally Day at the church will take place this coming Sunday also, when every enrolled member of the Sunday school is urged to be present and every regular member asked to bring some visitor. Special invitations are being sent to everyone.

The Bethany Men's Fellowship will hold their monthly meeting on Tuesday, Oct. 11. A steak fry will constitute the dinner hour and following this the main feature will be a "favorite photo contest" after which the devotional will be given. All men of the community are cordially invited to attend. Tickets may be obtained by calling the church office, EL 5-1409.

Rally Day At Faith Lutheran

Rally Day will be observed in the 9:15 Sunday school session at Faith Lutheran Church, 845 Hastings Ranch Drive, according to Superintendent Marcus Silvera.

The events during the opening session will include the installation of the teaching and administrative staff for the new Sunday school year, the regrouping and advancement of class members and the enrollment of new pupils.

In the 8 and 10:30 worship services, held in the new sanctuary, Pastor Armin Hesse will present a Biblical pulpit message on the theme "The Spiritual Diagnosis of Suffering," taking his sermon Scripture from the Old Testament Book of Job.

Think before you speak, and you'll have no trouble to speak of.

Hills Church To Start Building

Three big steps taken by the congregation Sunday will enable Shepherd of the Hills Lutheran church to begin building in about 30 days. The first building of a multiphase plan will include a chapel, classrooms, nursery, fellowship hall, kitchen, restrooms and office to the west of the Richfield service station the church owns a the northwest corner of N. Santa Anita Ave. and W. Foothill Blvd. in Arcadia.

The congregation voted unanimously, at a special meeting following the morning worship, to approve a loan of \$56,500 at low interest rate from the Board of American Mission of the Lutheran Church in America. Then the members pledged to support the building fund over the next two years, as in past years, in order to repay the loan. Final working drawings for the \$205,000 building program have been approved by the Department of Church Architecture and the Arcadia Planning Commission, calling for driveways on Foothill and Santa Anita, paved parking and extensive landscaping.

The congregation has experienced a 50 per cent growth in membership within the last 18 months and now numbers 300 baptized members. New members will be received again on Reformation Sunday, Oct. 28, fifth anniversary of the first service held in the Upper Room of the Sierra Madre Woman's club. The church now meets in the Sierra Madre Masonic Temple.

Loyalty Sunday Goal Is 100% At Hills Church

Purposes and goals for Shepherd of the Hills Lutheran Church in the coming year will be expressed by members at a "grassroots" survey meeting after an abbreviated worship on Loyalty Sunday, Oct. 7. A 100 per cent attendance at the service and meeting is being sought.

Each member will complete a form which will give the congregation and its auxiliaries information toward building a better program of worship, education and activities. This is the opportunity for all members to suggest improvements and new ideas for the mission program of the congregation to present Christ to the community and neighbors.

At the 10:10 a.m. service, the choir led by Director Charles E. Markham, with Organist Norman Lunt accompanying, makes its fall debut. The Rev. Ray E. Hansen preaches on "When Christ Touches You," based on Jesus healing the widow's son. "Today, Christ performs an even greater miracle in bringing eternal life to the spiritually dead," said Pastor Hansen in urging all members to come to Loyalty Sunday.

Sunday school classes for boys and girls 4 and older are at 9 a.m. with the new superintendent, Ted Huettis of Sierra Madre, in charge. The pastor's class for members and newcomers is held at 9 a.m. Sundays, with duplicate session at 7 p.m. Wednesdays.

Visitors are welcome.

Rector's Study Group

"Today, in what may be called a post-Christian era, the Church finds herself facing the same challenges and assuming the same role as in early years—that of a missionary minority in a loved by hostile world." Fr. Wylie at the Diocesan summer school, Claremont, June, 1962.

With this in mind the discussions on the Acts of the Apostles conducted by the Rev. Harley G. Smith, rector for the women of the Church should be of special interest at this time. They will be held the second and fourth Wednesdays of the month at 10 a.m. in the Parish House beginning Wednesday, Oct. 10. Coffee and rolls will be served in the event some wish to make their communion at the 9 a.m. Mass.

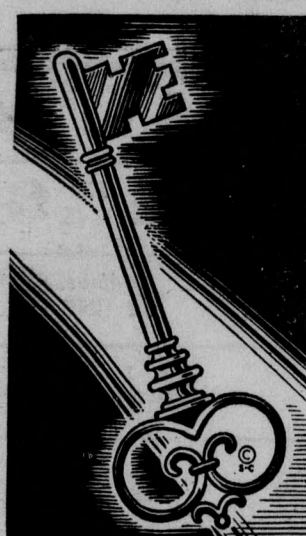

"The Young Church in Action," by Fr. Phillips and the New English Bible both offer good modern translations and may be purchased in paper back for a nominal sum. If you wish to order either one through the Church women, please call Mrs. Felton, SY 8-1744.

Lesson-Sermon Announced For Sun., Oct. 7

Overcoming fear will be a theme dealt with at Christian Science services Sunday in a Lesson-Sermon entitled "Unreality."

Opening the Scriptural selections is this verse from Isaiah: "Fear thou not; for I am with thee; be not dismayed; for I am thy God; I will strengthen thee; yea, I will help thee; yea, I will uphold thee with the right hand of my righteousness."

A correlative citation to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy states: "Whatever is governed by God, is never for an instant deprived of the light and might of intelligence and life" (p. 215). The Golden Text is from II Timothy: "God hath not given us the spirit of fear; but of power, and of love, and of a sound mind."

"Death is the golden key that opens the palace of eternity."

"Am I my brother's keeper?" How often this expression comes up in our lives and how much we ARE our brother's keeper. The only survival of man is based on the very fact that we help each other in order that we might help ourselves.

Being a keeper doesn't necessarily have to be on a big scale. Every day of our lives we are called upon to do many small acts of sponsoring society in one way or another. Taking someone's child to school, soup to a sick neighbor, a donation for someone less fortunate, an hour or two spent in the service of others. It is generosity and humility, it is caring for other people's emotions, it is bread on the water. We all go in different directions in our giving and in different magnitude, but that in no way lessens our moral responsibility, and only by giving are we able to receive.

I talked to Mrs. Karl Deitzel of Meyerloa Lane last weekend. They just returned from a tour of California with Mr. and Mrs. George Wimmer, Mrs. D's brother and wife. They started out in Sequoia. Inasmuch as it was post-season, they had to stay in Fresno so they had an additional tour of the Human Mole's cave. Barbara said it was just fantastic how this old man had carved into a mountain and made a complete home underground. He even had trees growing down there with their branches going up through the roof. They went on to Glacier Point in Yosemite, Lake Tahoe, Squaw Valley, Carson City, Virginia City, Reno, Lassen Park, Mt. Shasta and on to the coast to Ft. Bragg. They took the old Skunk Line Railroad to Willets. That is the old 40-mile trunk that goes from an elevation of 80 feet to about 1700 feet, crossing back and forth over the stream. Their final leg was to San Francisco and returning by way of Carmel to home in time to celebrate Mrs. Wimmer's birthday.

We have some charming newcomers in the area at the top of our hills. They are Dr. and Mrs. Arthur Kay and their three little K's, Gregory, 8½; Haig, 5, and their baby daughter, Ardis, who will soon be 2.

Dr. Kay is a dentist and is practicing in the Footfall and Vista area.

I asked Mrs. Kay what her hobbies were and she expressed a great interest in drawing and painting, but has little time for it with her children's activities making such demands at present.

Janet Holmes was the honoree at a bridal shower given last week by Mmes. E. Marshall Harris, Robert Anderson and Norman White at the White home on Old House Road. The hostesses served a delicious dessert and coffee before the gifts were opened. They ended up with a rousing bridge game. Those invited were Mmes. Lincoln Wilson, Alkman Armstrong, Edwin Pyle,

R. W. Stinebaugh, John Fricke, Jack Paschall, Jr., Robert Mueller, Edward Halperin, Larry Garland, Robert Kenney, Ira Lackey, James Smith, Charles Goldsworthy, Janet's mother, Mrs. George Holmes, and myself.

I have written about Seattle World's Fair trips in every way, shape and form, but I think that Mr. and Mrs. Sam Matloff had one of the most unique and charming trips of the season. They left here by car with Mr. and Mrs. Ken Hamill and their son, Frank, stopping en route to San Francisco at King City. After touring S.F. they boarded the Panamanian ship, "Yarmouth," and sailed to Victoria. Then they boarded a bus to Sidney, ferried to Anacortes, and then buses again to Seattle, where they met the "Yarmouth" and were able to use it as a hotel while they visited the Fair and around the Seattle waterways. It is the first glowingly wonderful report I have heard about the Fair. One of the highlights to them was that they were able to participate in the final days of the Canadian week and to view the Canadian Tatoo program. Thirty-two of the Canadian Mounted Police came from there there to our Pomona Fair where they displayed their Musical Ride. In order to come home they had to leave the ship stateside and go by bus and ferry back to

most embarrassing to a tremendous number of persons.

Incidentally, one of the amendments we soon must vote on would raise the pay of state legislators \$4000 or \$5000 a year. It seems to me that it is all part of the same picture of steadily rising costs of governmental operation of all kinds. If I remember correctly, only ten years ago a Congressman's salary was \$12,500, an assemblyman's only \$3600. Now a Congressman gets \$22,500 and can hire so many aides and has so many perquisites that recently it was estimated — I forget by whom, but heard the published report read by a commentator — that directly and indirectly it costs us about \$150,000 a year per Congressman. Now the argument is that all Assemblymen should get at least half what a Congressman gets, and some Congressman are mumbling that they should get more.

No doubt I'm a back number. But I think politics is like the armed forces — no one should enter except for service, for the honor of serving, even at considerable sacrifice. If that honor wasn't worth a great deal, why did so many good men fight hard to win the jobs, even when the salaries were low? And what will become of our country if ever we lack good and able men and women who want to serve it, no matter what the sacrifice? I happen to like all the Congressmen and other public servants I know, but I love my country more, and think all those in public office should set examples by starting in their own offices to save Uncle Sam from going broke.

66th Quarter

Altadena Federal Savings Lists Quarterly Earnings

Altadena Federal Savings and Loan Association today announced its 66th consecutive quarterly distribution of earnings. As pointed out by J. E. Webster, president, the distribution at the current rate of 4½ per cent per annum, for the period from July 1 through Sept. 30, 1962, is "... a reflection of a continuous association policy for more than 28 years of providing its customers with the highest rate consistent with safety."

In conclusion, President Webster stated that, "In the final analysis, his consecutive earnings distribution indicates unmistakably the solid, steady progress of Altadena Federal Savings since its founding in 1934. Our progress, in return, is but an indication of the continuous growth pattern of the community as a whole."

Our progress, in return, is but an indication of the continuous growth pattern of the community as a whole.
